(615) 898-8090

New Course Offerings

The Fleming Training Center (FTC) will offer the following new courses for water treatment and distribution system operators during the 2004-05 year. Operators interested in attending any of these classes should complete a registration form and return it to FTC a minimum of 30 days prior to the event. Anyone having questions should contact the Training Center at (615) 898-8090 for more information.

- **Water Treatment Summary Class (#1105):**

This summary class is one day in length and will briefly discuss all aspects of water treatment for grades 1-4. It will focus on rules and regulations and will provide handouts of materials used in the one- and two-week regular basic water treatment classes (including copies of PowerPoint presentations). This course is designed to assist those persons who are unable to attend the regular basic training courses held in Murfreesboro. Dates: October 4, 2004 – Jackson and October 18, 2004 – Knoxville.

- **Distribution Systems Summary Class (#1106):**

This summary class is one day in length and will briefly discuss all aspects of water distribution for grades 1-2. It will focus on regulations and safety and will provide handouts of materials used in the one-week regular distribution system class (including copies of PowerPoint presentations). This course is designed to assist those persons who are unable to attend the regular basic training courses held in Murfreesboro. Dates: October 5, 2004 – Jackson and October 19, 2004 – Knoxville.

- **Training for Water Systems Serving <3,300 Customers (#1108):**

This basic class is three days in length and is designed to assist uncertified personnel of water systems serving 3,300 or fewer customers in preparing for a career in operation of water treatment plants of this size. Training topics will consist of an overview of the Safe Drinking Water Act and TDEC rules, a math review, introduction to water treatment processes, specific elements in the treatment of water, fundamentals of distribution systems and storage, and fundamentals of safety and plant and system maintenance. Dates: April 5 – 7, 2005 – Jackson; April 26 – 28, 2005 – Murfreesboro; East Tennessee dates/location – to be determined later.
